PROFESSIONAL SUMMARY

Motivated Mechanical Engineering student with strong analytical and problem-solving skills, seeking to build a career in the IT industry. Skilled in structured thinking, teamwork, and adapting to new technologies. Familiar with programming basics (Python, C++) and beginner-level SAP concepts, with a keen interest in low-coding IT roles such as consulting and business process management. Quick learner with a disciplined approach to tasks, eager to apply engineering knowledge and IT skills to deliver efficient solutions and grow professionally in a dynamic environment.

EDUCATION

Prof. Ram Meghe Institute of Research and Technology, Badnera Rly 2023

Bachelor of Technology in Mechanical Engineering

Minor in Computer Science and Engineering
Relevant CS Courseworks : Data Structures and Algorithms, Database Management Systems, Data Analysis
GPA: 8.53/10

Shri. Shivaji Science College, Amravati 2021

Higher Secondary Education
Passing Percentage**:** 63.67%

TECHNICAL SKILLS

- **Programming Languages**: C++, Basic Python
- **Developer Tools & Environments**: Git, Github, VS Code, Jupyter Notebook
- **Frontend Web Development**: HTML, CSS, Javascript
- **Core Computer Science Concepts**: Data Structures and Algorithms(Recursion, Strings, Search/Sort), Database Management Systems, Object Oriented Programming(OOP)
- **Others**: Excel, Basic Power BI, SQL

CERTIFICATIONS

- Introduction to Gen AI - Prepinsta Technologies PVT. LMT 2026
- SQL and Database Design Fundamentals - 2026
- Basics of Python - Prepinsta Technologies PVT. LMT 2025

PROJECTS

Multi-Concept Store Website(Cafe, Pottery, Floral & Bookstore) | HTML5, CSS3, Flexbox & Grid, Responsive Web Design

- Designed and developed a unified, responsive web platform showcasing an integrated café, pottery workshop, floral studio, and bookstore using semantic HTML5 and custom CSS3.
- Implemented multi-section layouts featuring menu displays, product showcases, workshop galleries, and curated reading lists using CSS Grid and Flexbox for seamless alignment across desktop and mobile screens.
- Styled custom interactive elements including hover-state navigation bars, visual product cards, and booking/contact forms using native CSS transitions and dynamic layout styling.

Amazon E-Commerce Frontend Clone | HTML5, CSS3, Flexbox & Responsive Web Design

- Developed a high-fidelity frontend clone of the Amazon desktop homepage using semantic HTML5 and custom CSS3.
- Built a detailed navigation system featuring a multi-segment header, search bar UI, category strip, and a full 4-tier link footer.
- Structured interactive product cards and hero banner sections using CSS Grid and Flexbox for precise alignment and dynamic scaling.
